SKILLS

- HTML, CSS, JavaScript, Next.js, React.js, TailwindCss, Bootstrap, Node.js, Express.js, MongoDB,
- React Native, Python, Django, SQL, MySQL Wordpress, Figma, Git, VScode.

WORK EXPERIENCE

Optimus AI Lab:*Full-Stack Developer / Contract*

06/2025 – 12/2025

- Worked closely with a team of developers and AI specialists to design and build software solutions powered by artificial intelligence.
- Contributed to both frontend and backend development, ensuring seamless integration with AI models, APIs, and databases for scalable, user-friendly applications.
- Participated in sprints, code reviews, and collaborative problem-solving sessions, gaining hands-on experience in bridging traditional software development with AI technologies

Melodia Coding Academy:*Full-Stack Lead Facilitator Instructor & Full-Stack Engineer*

04/2025 – present

- Lead the delivery of comprehensive full-stack web development training, ensuring curriculum alignment with industry standards.
- Mentor learners and oversee instructional teams, fostering collaborative learning and technical excellence.
- Manage the end-to-end software development lifecycle for client projects, from requirements gathering to deployment.
- Drive adoption of best practices in code quality, scalability, and performance across instructional and client-facing projects.
- Bridge training with industry practice by providing learners hands-on exposure to real-world client solutions.

Tinzwave Technology:*CEO/Founder*

08/2024 – present

- Built and scaled web & mobile solutions for clients in travel, e-commerce, and SaaS.
- Led a team of X developers, designers, and marketers.
- Designed system architecture using MERN stack, Next.js, and cloud solutions.
- Closed partnerships with businesses
- Oversaw full product lifecycle from ideation to deployment.

New Horizons:*Full-Stack Developer full-time*

08/2024 – 3/2025

- Guide and mentor junior developers in web development best practices, code reviews, and project planning.
- Collaborate with a team of developers to design and implement web applications, ensuring responsiveness, performance and user experience.
- Participate in the full software development lifecycle, including requirements gathering, design, development, testing, and deployment.
-

Leinad Studio:*Full-Stack Developer Contract*

06/2024 – 12/2024

- Guide and mentor junior developers in web development best practices, code reviews, and project planning.
- Collaborate with a team of developers to design and implement web applications, ensuring responsiveness, performance and user experience.
- Participate in the full software development lifecycle, including requirements gathering, design, development, testing, and deployment.

FinezCV:*Frontend Developer Contract*

09/2023 – 04/2024

- Played a key role in developing FinetzCV job web application by designing user interfaces, implementing new features, and ensuring the application's responsiveness and performance.
- I collaborated closely with the backend team to integrate frontend components with the server-side logic, contributing to a seamless user experience.
- Utilize technologies such as React, Node.js, and MongoDB to create dynamic and interactive web solutions.

Tezza Business Solutions Ltd:*Frontend Developer Contract*

04/2022 – 08/2023

- Collaborated closely with backend developers and UI/UX designers to build the TEZZMANDATE project, a comprehensive web application for MTN.
- Led the frontend development by converting Figma designs into responsive and efficient code, ensuring a seamless user interface across the web app.
- Implemented key functionalities within the TEZZMANDATE web app, contributing to a robust and user-friendly experience for MTN's users.

All-Tech System & Co:*Frontend Developer Intern*

01/2022 – 05/2022

- Collaborated with UI/UX designers and frontend developers to create client-focused web applications, ensuring they met the specific needs and requirements of each project.
- Let training sessions for students, teaching essential web development skills including HTML, CSS, and JavaScript.
- Contributed to Various projects, enhancing both the functionality and user experience of client web applications through effective teamwork and independent problem-solving.

EDUCATION

National Open University of Nigeria || Lagos Center

September 2021 – May 2025

B.S. Computer Science,

Relevant Coursework: Data Structures and Algorithms, Operating Systems, and Programming, Artificial Intelligence, Wordpress Development, Software Engineering, User Experience/User Interfaces, Full-Stack Development.
